Hi Tina,

Thanks for sending me the replacement battery. It works a treat! I've no idea why the silver ones don't but the black ones do, as the label on the back is identical! Thanks for your patience..... :-)

Dear Sarah, Shelly and Lynne

This is just a quick note to say thanks very much for my refurbished Ryobi powerpack batteries, which arrived back here the day before yesterday. I have charged both of them and they look excellent. I've had my drill for quite some time and had been disappointed that the battery packs were dying but they now seem as good as new. Please thank the people in the workshop for me and let them know I appreciated their effort. I'm sure it won't be too long before I need something else! (my cordless screwdriver is feeling a bit feeble too!!).

Regards

Bill

Dear Sir,

Just a quick e-mail to thank you for your prompt service in sending me the two replacement batteries as listed above, following the previous incorrect ones I received. I have returned the previous ones to you using the returns label you e-mailed to me, but without a covering note. I am very grateful that you sent me the correct ones as quickly as you promised.

Many thanks.

Just received my order for a camcorder battery on Saturday order number 130716.
Your service was excellent placed my order at 4pm on Friday and received the battery Saturday morning, the service I received ticked all the boxes

Dear Lynn
Thank you vey much.
It's sad but these days I have come to expect a negative response as the 'norm'. So it was a pleasant surprise to receive such a rapid and helpful response! Thank you very much. I thought it very strange too as the labelling printed on the sealed pack clearly indicates 2300 mAh batteries. Since it was sealed, I can only agree that it must have been packed incorrectly. Thanks you very much for your help in this matter. I will be keen to recommend your company as a worthy supplier to my friends and colleagues.
Kind Regards Brian
